Personal

Hi, im a software engineer. I have a total career for 9 years, among them I worked as a web and mobile app developer for 4 years. My daily work as javascript programmer. I have experienced in developing modern SPA web app, using angularJs*, vue js and quasar framework with express.js and noSql database. I also have experienced in developing hybrid websites using php sql database html and css. I am fast learner, excited in new things that can solve problems in a better way.

Quality person is someone who can continue to improve graphics of competence and value to mankind because working is a part of worship.

I hope with my experience, I can make a great contribution to the company, thank you.
